

TECHNICAL DATASHEET

Dash Camera | PJ-40

DESCRIPTION

The PJ-40 Dash Camera combines intelligent video telematics, HD road-facing video, and 4G LTE connectivity to help fleets improve safety, visibility, and operational control. Detect unsafe driving behaviors, deliver real-time in-cab coaching through voice alerts, and access recorded video through cloud-connected uploads and playback. With GPS tracking, in-cab audio, route history, and a compact design, the PJ-40 provides valuable video evidence and greater insight into driver activity, vehicle location, and incidents.

Ideal For: Commercial Fleets, Transportation, Construction, Service Vehicles, Utilities, Oil & Gas, and Other Mobile Operations

TECHNICAL DATA

Reporting Data	Telematics Data, Event Video Uploads, Images
Default Reporting Intervals	Varies or Event Based
Communication	4G LTE Cat 4
Network/Connectivity	AT&T Certified GPS & Cellular Positioning
Video Resolution	Full HD 1920 x 1080p, Wide 118° FOV
Storage Card	64GB MicroSD Card Included; Supports Up To 256GB
Battery Power	N/A
Over-the-Air Updates	Yes
Emergency Recording Button	Yes (Optional Accessory)
Audio	Built-In Speaker and Microphone
IP Rating	N/A
Dimensions	4.29" x 2.71" x 2.05"
Weight	8.22 oz
Operating Temperature	-4 °F to +149 °F
Installation Options	Adhesive Windshield Mount

HIGHLIGHTS

-  Road-Facing Recording
-  Day/Night Vision and Infrared Capability
-  Local and Cloud-Connected Video Storage
-  AI Event Detection and Driver Coaching

OPTIONAL ACCESSORIES

- Emergency Recording Button
